

High Strength Plastic Cable Tracks For Industrial Automation

Our Product Introduction

For more products please visit us on flexiblecablecarrier.com

Basic Information

- Place of Origin: Cangzhou Hebei
- Brand Name: BNEE
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Export Packing
- Delivery Time: 7~15 working days
- Payment Terms: L/C, D/A, T/T, Western Union

Product Specification

- Structure: Bridge Type
- Load Capacity: Medium
- Temperature Range: 40C-130C
- Color: Black
- Height: 10 Mm
- Material: Plastic
- Working Temperature: - 40°C~ + 110C
- Outer Width: 10mm-364mm
- Highlight: **Industrial Automation Cable Tracks,
Plastic Cable Tracks,
High Strength Cable Tracks**

Product Description:

The black Cable Drag Chain is a versatile and durable machine tool accessory designed to efficiently manage and protect cables in various industrial applications. With a length of 1 meter, this steel cable drag chain provides reliable support and organization for cables, wires, and hoses, ensuring smooth operation and preventing damage.

Constructed from high-quality metal materials, this cable drag chain offers excellent durability and resistance to wear and tear, making it suitable for heavy-duty use in CNC machines and other equipment. The black color of the drag chain adds a sleek and professional look to machinery while enhancing its overall performance.

The height of the cable drag chain is 10 mm, providing ample space to accommodate cables and wires of different sizes. The inner diameter of 35mm*125mm allows for easy installation and routing of cables, optimizing the overall efficiency and functionality of the machine.

Whether used in manufacturing plants, workshops, or industrial settings, this metal cable drag chain is designed to meet the demands of modern machining processes. Its robust construction and reliable performance make it an essential accessory for ensuring the smooth operation and longevity of CNC machines and other equipment.

Investing in a high-quality cable drag chain like this one not only protects your cables and wires from damage but also helps maintain a neat and organized workspace. By securely holding and guiding cables, the drag chain prevents tangling, twisting, and other issues that can lead to downtime and maintenance problems.

Overall, the black Cable Drag Chain with a length of 1 meter is a practical and efficient solution for managing cables in machine tools and industrial equipment. Its durable construction, convenient dimensions, and reliable performance make it an essential component for enhancing the productivity and longevity of CNC machines and other machinery.

Features:

Product Name: Cable Drag Chain
Temperature Range: 40C-130C
Load Capacity: Medium
Structure: Bridge Type
Application: Industrial Machinery
Outer Width: 10mm-364mm

Technical Parameters:

Working Temperature	-40°C~ +110°C
Temperature Range	40°C-130°C
Outer Width	10mm-364mm
Mode	TLG 100
Inner Diameter	35mm*125mm
Load Capacity	Medium
Length	1 Meter
Function	Machine Tool Accessories
Material	Plastic
Structure	Bridge Type

Applications:

BNEE Cable Drag Chain is a versatile and reliable solution for managing cables in various industrial machinery applications. Originating from Cangzhou, Hebei, this product is designed to provide efficient cable organization and protection in demanding environments.

The black color of the cable drag chain adds a sleek and professional look to industrial machinery setups. With a working temperature range of -40°C to +110°C, this cable track chain is suitable for use in a wide range of working conditions, ensuring optimal performance even in extreme temperatures.

Constructed with high-quality materials, the BNEE cable drag chain offers a medium load capacity, making it ideal for supporting and guiding cables in industrial machinery setups. The 10mm height of the chain provides sufficient space for cables to move smoothly without any obstructions.

Whether you are looking to organize cables in CNC machines, robotic arms, or other industrial equipment, the BNEE cable drag chain is a reliable choice. Its durable construction and efficient cable management capabilities make it a valuable asset in various industrial settings.

Whether you prefer a plastic cable chain or a metal cable drag chain, BNEE has you covered with its high-quality and versatile cable track chain solutions. Enhance the performance and longevity of your industrial machinery by investing in the BNEE Cable Drag Chain today.

Support and Services:

Our Cable Drag Chain product comes with comprehensive Product Technical Support and Services to ensure smooth operation and customer satisfaction. Our team of experts is available to provide assistance with installation, troubleshooting, and maintenance of the Cable Drag Chain system. Additionally, we offer training programs to help your staff understand the product and maximize its performance. Our goal is to provide you with the support you need to make the most of your Cable Drag Chain investment.

Packing and Shipping:

Product Packaging:

The Cable Drag Chain product is carefully packaged to ensure safe delivery. Each chain is wrapped in protective material to prevent scratches and damage during transit. The packaging is designed to withstand handling and transportation to reach you in perfect condition.

Shipping:

Our shipping process is efficient and reliable. Once your order is placed, we aim to dispatch it within 1-2 business days. We partner with trusted courier services to deliver your Cable Drag Chain product to your doorstep. You will receive a tracking number to monitor the progress of your shipment and ensure timely delivery.
